INTER OFFICE NOTE

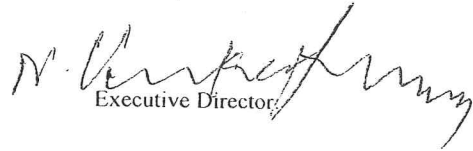

The Corporation is using in-house developed online application for the past 25 years to carryout day to day operations. This application contains more than 800 reports provided under various modules. These reports are created by the IT Department based on the requirements given by the end users or the Management. However, it is observed that most of the reports provided in the online application are not being used and only few reports are being used regularly. In this regard, it is envisaged to get a feedback from the users of the KSFC online application to decide whether to retain all the reports or merge some of the reports and discard some of the reports. This information will be helpful as the Corporation is getting its online application upgraded by the Centre for Smart Governance(CSG). This information helps the Corporation to restrict the number of reports to only required once.
